Bellezza nel nostro tempo
FACE AND BODY TREATMENTS
Perfect Skin - ELECTROPORATOR

Electroporation of last generation that can be defined as “No-Needle Mesotherapy”. Perfect Skin, with its ultrasonic waves, performs a beneficial dynamic micro-massage and a deep skin cleansing. It tones up and rejuvenates the tissues. It allows very good results on wrinkles and senescent skins. It is provided with:
- 1 spatula that utilizes ultrasound waves to gently exfoliate dead skin cells and impurities to achieve a radiant healthy glow and stimulate collagen and elastin production.
- 1 specific hydrophor handle for the electroporation functions on face and body with 4 different sizes electrodes. It transmits active ingredients into skin tissues without pain. It helps to decrease wrinkles. It is also used for body treatments such as, stretch marks, preventing the reduction of muscle tone in the buttocks, legs, arms, breasts and abdomen, and speeding up the body’s fat burning process.

Perfect OXY Skin* - NEW OXYGEN SKIN CARE TREATMENT

Facial rejuvenation system that combines the most advanced technology for a unique and effective treatment:
- deep cleansing facial with ultrasound spatula, allowing the removal of dead cells and impurities of the skin
- oxygen Infusion, under pressure, mixed with active serums such as hyaluronic acid and vitamins A, C, E aids delivering of actives to the deeper layers of the skin at the same time as cooling and calming the skin. This combination of oxygen and specialized infusions initiate osmotic hydration leaving the skin noticeably firmer and glowing with a visible lift! This treatment is a perfect anti-aging suitable for both men and women of any age.
- electroporation acts directly on the cellular membranes promoting the migration of special active principles into the deepest skin layers and actually stimulating the cellular metabolism. Tissues are regenerated and will have a soft youthful skin.
Wood’s Lamp

Wood’s lamp emits ultraviolet light and can be a diagnostic aid in determining the conditions of the skin surface and under skin.

BFA Evolution
BODY IMPEDANCE ANALYZER

Bioimpedance is used to directly measure the weight and percentage of body fat in your body. BFA provide detailed body composition analysis - weight, impedance, body fat %, body mass index, fat mass, fat-free mass and more. After testing with the BFA, the measurements are entered into the EVOLUTION software which performs the body composition analysis. The end results can provide guidance for an individual to improve their body composition using the diet and specific treatments without invasive surgery. Evolution and BFA allow you to create a way of working in your beauty salon and make the most of all purchased equipment to multiply the results.

Energy Air - ENDODERMIC MASSAGE

Energy Air is a machine that massages tissues under suction to improve blood flow and lymphatic drainage. It utilizes the principles of Endermologie with suction cups for face and body; vacuum massage is also used as an effective method to treat cellulite, and to reduce swelling: it re-educates the facial muscles providing significant face lifting and restoring the skin complexion. It eliminates wrinkles and reduces the deep ones.

Perfect Body + infrared
ELECTROSTIMULATION

It is a professional electro-stimulator with possibility to combine infrared plates system. The equipment includes 8 outputs for the electro-stimulation (they work alternatively 4 per time). It acts with the same physiological principles of muscular contraction naturally improving circulation, helping to remove the layer of fat on the hips, belly, back, arms, etc. It is a versatile device with a large choice of programs and it's easy to use. Perfect Body improves the silhouette and tones.

Phisiopress JR
PERISTALTIC MASSAGE

Phisiopress is an exclusive detoxifying treatment, which through effective lymphatic drainage, helps to promote the body's natural toxin clearing functions. The revitalization and oxygenation of the tissue helps to slim and redefine the legs, stomach and arms while enhancing skin tone. It is a compact machine and of good design, that generates the peristaltic wave with different pressures, fighting water retention by applying intermittent compression on one or more parts of the body. Phisiopress is supplied with a BOOT Kit, with 8 independent sectors.

New Sonic System - New!

FACE AND BODY TREATMENT

Complete equipment combined with 3 technology, ideal for those who open a beauty salon or for those who want to renew it. It is a highly accurate system, suitable for face and body with: touch screen, ultrasound spatula to clean the skin, hydrophor handle for a real non-invasive lifting and deep hydration of your skin, and a handle with ultrasound impulses and heat transmittance for the treatment of localized fat. It performs specific working programs on buttocks, coulotte de cheval, hips-thighs, knees-ankles. This new machine belongs to the family of the heat emitters (2 handles: 1 Mhz and 3 Mhz). The process is an alternative to liposuction. The new technology focuses the ultrasound frequencies to only target fat cells in the body and essentially melts away the fat. Because the ultrasound can target fat cells on the surface of the skin, no surgery is needed to remove unwanted fat.

Slim Sonic* - New! LOW-FREQUENCY

ULTRASONIC ELASTIC WAVES

Slim sonic is the exclusive system by Sie Depil that uses the coordinated action with the latest technologies to guarantee outstanding results against cellulite, localized fat deposits and aging signs.

For body: it works with ultrasounds that form bubble in the tissues where the fat cells are. The bubble expands and then it is immediately compressed. The temperature increases due to the pressure sudden variation and the bubble implodes. The implosion damages the fat cells, reducing the localized adiposity. In addition to eliminating skin imperfections such as cellulite and localized fat, it promotes the fluids drainage and stimulates the skin’s natural elasticity.

Slim Sonic is also a Facial Rejuvenation System:

- Ultrasound Spatula that can effectively removes dead skin cells and clean the pores, so it is good for all skin types; it reduces lines and pigmentation, stimulates cell renewal and turnover rates, facilitates hydration and absorption of ingredients

- Handle hydrophor for electroporation that transmits cosmeceuticals into dermis without needles. It is a perfect Anti-aging, Wrinkle Reduction, Lifting & Firming, Pore Size Reduction and Skin Rejuvenation

SIE DEPIL informs all customers that all the machines produced meet the regulations of the act 110 published in the Gazzetta Ufficiale in 16/07/2011. For further information, please contact us by e-mail at commerciale@sieitali.com or by telephone +39 0721 416640.
Thermal SPA Bed - New!

Our “Thermal Spa Bed” represents a “winning card” for SPAS as well as for beauty salons that want to enrich themselves with an attractive thermal corner. This product, which is designed and manufactured according to the latest research in the bio-ergonomic field, offers high functionality, safety, flexibility and comfort. It works thanks to a steam generator controlled by a digital thermostat which regulates the temperature.

cod. SIE 2353

Heater

Heater for creams and oil. It is furnished with 3 cups.
